

SOLANA®

Serenity made simple.

Discover Solana.

Imagine having your personal masseuse, on call whenever you want, in the comfort and privacy of your own home. It's now a reality with the remarkable Solana® spa. Its elegant shell, clean

contemporary lines and sweeping curves live comfortably in any residential setting - inside or outdoors. The unique variety of custom jets and contoured seats cradle your body and provide soothing relaxation. A Solana® spa is always ready to ease into without any preparation or waiting. So whether you want to relax alone or together, consider Solana® your private destination for serenity and rejuvenation each and every day.

Solana® spas offer a wide variety of jets adjustable to customize your hydromassage experience. Precision® jets provide an invigorating back and shoulder massage.

Our patented Moto-Massage® jet sweeps up and down your back on the TX and SX model, while the rotary and directional Hydromassage jets provide deep relaxation.

Solana[®] Spas improve your lifestyle and enhance the décor of your home.

We have put a lot of thought into how a Solana[®] spa will optimize your sense of well-being, we have also put considerable effort into how it will optimize your living space. It's compact enough to fit out of the way in small spaces, yet roomy enough inside to stretch out comfortably. Completely portable, a Solana[®] spa enhances your sunroom, patio, basement or spare bedroom. Solana[®] spas are perfect for indoor and outdoor use. Its contemporary crème exterior is made of Enduro[®] – an advanced thermoplastic that sets the standard for durability and ease of maintenance. And inside, the soft glow of a dimmable blue LED light creates a relaxing atmosphere. You can even select your favorite color, creating just the right mood with Splendors[®], our optional underwater multi-color LED light kit!

Delivery and set-up are easy, so you'll soon be enjoying soothing, satisfying hydromassage.

With its slim profile and unique shape, the Solana[®] TX fits through a standard doorway, up or down stairs and around corners.

The no nonsense approach to tranquility.

Solana® spas are all about simplicity. Electronic controls mean you select the desired temperature using the backlit display panel or the optional IQ 2020® remote control. Just set it and forget it. The insulated foam shell and vinyl cover help retain heat to keep energy costs low, and the integrated filtration system keeps the water clear and fresh with minimal effort. For a more natural water care, you can always add the optional FreshWater® III ozone system. Locking straps on the cover provide additional safety. All internal components - pump, heater and filter - are specially designed for a low-maintenance life and are backed by a comprehensive limited warranty. So if you've been looking for the easy way to give yourself the special attention you deserve, your search has ended. Welcome to the soothing realm of Solana®.

Watkins is one of Masco Corporation's family of leading home products companies,
